Módulo 3 – Introducción a la producción de vídeo

Unidad 2 : Equipo y pre-producción

Captura de sonido

Causas comunes de ruido no deseado

Refrigerator

Computer Server

If a bad noise can't be stopped then, perhaps, show the source of the noise in the film so that the viewer is no longer distracted by curiosity

Office lighting

Air conditioner

Mantén los micrófonos lo más cerca posible...

...¡Pero fuera de la toma!

Sincronización de imagen y sonido

¿Por qué se usa una claqueta?

Sincronización de imagen y sonido

**The clapping gives a visual
'moment' which you film**
(the *sight* clapperboard closing)

If you don't have a clapperboard you can
simply clap your hands, once, loudly

**In editing, match the visual
moment with the audio
moment and your film's sound
and picture will be
synchronised.**

**... and an audio moment
which you record through
your audio recorder**
(the *noise* of the
clapperboard)

The illustration shows sound
on a timeline in the free sound
editing software 'Audacity'
