Synchronizacja dźwięku i obrazu

Dlaczego używa się tablicy klapowej?

Synchronizacja dźwięku i obrazu

The clapping gives a visual 'moment' which you film
(*the sight clapperboard closing*)

If you don't have a clapperboard you can simply clap your hands, once, loudly

In editing, match the visual moment with the audio moment and your film's sound and picture will be synchronised.

... and an audio moment which you record through your audio recorder
(*the noise of the clapperboard*)

The illustration shows sound on a timeline in the free sound editing software 'Audacity'
